Initial Access of Your Mailbox

Congratulations on becoming a Hargray Advanced Voicemail subscriber! The following instructions will guide you through the steps you need to set up your voicemail for the first time.

HOW TO USE (First Time Use):

1. From your home or office phone, dial *98.
2. Enter the Personal Identification Number (PIN) that was provided to you when you initiated service.
It is important to note that you can change this PIN at any time if you chose to do so (From Main Menu, press "4" for user options", "2" to manage password, then "1" to change password). The new PIN must be between 4-19 digits and should be easy for you to remember but difficult for others to guess.
3. Voice instructions will prompt you through the initial set up of your voice mailbox. You will be asked to create a greeting that your callers will hear each time they call.

Your mailbox is now ready to receive your messages. When you lift your handset, a distinctive "stutter" dial tone or message waiting light will alert you that messages are waiting for you to retrieve.
