

## Watching Shows

- **Live TV: Return to live TV at any time.**  
Press the LIVE TV button on your TiVo remote to watch live TV. Press LIVE TV again to switch tuners.

- **My Shows: All your recorded or downloaded programs.**  
My Shows is the first menu item on the TiVo Central screen. Here you'll find all of your recorded and downloaded shows and all of your TiVo recommended shows (TiVo Suggestions).

**Hint:** You can get to the My Shows list by pressing the **TiVo button** on your remote control twice.

- **Parental Controls: Controlling access is easy.**  
Restrict access to shows based on rating or simply restrict certain channels. From the **TiVo Central** screen, select **Settings & Messages > Settings > Parental Controls**.

**Note:** You must be using TiVo with SD menus to use Parental Controls. If you try to enable Parental Controls while using TiVo with HD menus, you will be prompted to switch.

## Getting recommendations

- **Discovery Bar: Get personalized recommendations.**  
The Discovery Bar is the bar of thumbnail images across the top of TiVo Central and most other TiVo with HD menus screens. The Discovery Bar helps you find new shows based on what your TiVo Premiere knows you already like! And it doesn't contain only shows. You'll also find thumbnails for actors, collections of related shows, and more. Press the UP arrow to move up to the Discovery Bar, then the LEFT and RIGHT arrows to move around. Press SELECT on an image that interests you to open an information screen about that item.

- **TiVo Suggestions: Record shows that match your preferences.**  
Based on the ratings you give to shows and movies, TiVo Suggestions automatically selects and records new content for you. It's a great way to make new discoveries. Don't worry, TiVo Suggestions won't override your own recordings or steal valuable disk space. If you choose to auto-record TiVo Suggestions, you'll find a list of recorded TiVo Suggestions in your My Shows list. TiVo Suggestions are marked with a Suggestions icon.
